BUSINESS PROCESS MANAGEMENT AND OUTSOURCING

During times of market and societal change, driving value becomes increasingly important. A company's operating model can be essential to that effort by optimizing and transforming business processes, enhancing resiliency, increasing agility and competitive advantages, and ultimately, achieving better business outcomes.

≡ Business Process Management (BPM)

Accelergent offers a broad spectrum of business process management (BPM) focused on process automation and back-office services for the benefits, financial services, and insurance industries, including associated sectors such as employee benefits administration.

Custom Arrangements

Accelergent will become a skilled and secure extension of your own team. Experienced and highly accurate (99+% as reported by our clients), we are able to optimize and streamline your processes and adapt to the changing needs of your business.

In addition to the services listed below, we can address many other business requirements. Talk to us about your specific needs.

Available BPM Services

- ▶ Data file consolidation for seamless system integration
- ▶ Process Automation
- ▶ Claims feed consolidation into standardized data files for import, validation, and adjudication
- ▶ Customer/member additions, terminations, and demographic changes
- ▶ Card application processing
- ▶ Manual data entry, from simple to complex
- ▶ Extensive documentation and reporting activities
- ▶ Quality checks to ensure compliance to regulations
- ▶ Supplemental customer service and research
- ▶ Custom services to meet your unique needs

≡ Business Process Outsourcing (BPO)

A key BPO advantage is the ability to accelerate important business processes, enabling companies to concentrate on their core services. This approach is particularly crucial for functions such as administrative processing performed by employee benefits TPAs. BPO services empower businesses to leverage seasoned professionals without the need for internal hiring, effectively managing costs and enhancing agility. BPO services also help reduce the risk of employee burnout.

Available BPM Services

- ▶ Employer plan setup and renewal
- ▶ Participant enrollment and re-enrollment
- ▶ Contribution reconciliation
- ▶ Debit card, online and mobile claims adjudication
- ▶ Employee Navigator and Ease file processing
- ▶ Automation scripts
- ▶ Preparing raw data files for import processing
- ▶ Importing and processing carrier claims
- ▶ Generating employer invoices
- ▶ Developing custom data and report extracts
- ▶ Turnkey account administration
